

SATX Youth Bowlers Tour - Bowling Ball Policy

Eligibility Standards

SATX Youth Bowlers Tour follows the **most recently published Junior Gold Championships Ineligible Ball List** for all qualifying-style rounds at regular tour stops.

- All bowling balls must appear on the [USBC-approved ball list](#) on BOWL.com.
- Some balls are **ineligible**, even if they appear on the approved list.

Parents may ask questions at any time regarding ball eligibility.

Ineligible Bowling Balls

The following bowling balls **cannot** be used in SATX YBT competition:

- All **slow oil-absorbing high-performance urethane models** listed in the Junior Gold Competitors Guide
- Any slow oil-absorbing high-performance ball **manufactured prior to Aug. 1, 2022**

The full ineligible list is available in the [Competitors Guide](#) on the Junior Gold Championships website.

Enforcement & Penalties

To maintain fairness and consistency:

First Offense

- Bowler receives a **warning**
- The ineligible ball is **removed from play**

Second Offense

- Bowler is **disqualified** from the event
- **No refund** is issued

Warnings remain in effect **for the entire season**.

Parent Reminder

If your athlete's ball is on the USBC-approved list **and** not listed as ineligible by Junior Gold, it is allowed for SATX YBT competition. When in doubt, please ask.
